Germaco
Hotkaps
New Method of Plant Protection

Hotkaps furnish each plant with a hothouse all its own. Healthful, hardier, quicker crops—and worth more to you because of earlier maturity.

Hotkaps are the best covers for plants. Made of strong, durable specially prepared wax paper, that shields crops from sun, heat, wind and cold. The wind will not blow them away. Millions were sold last year and once they're tried, they will always be used.

Make money selling them to vegetable growers and canning factory growers. Easy to handle, no waste and good profit for the dealer.
